PLEIN SUD COLLECTION / outdoor

'Plein sud' è una linea di tappeti per il residenziale e il 'contract' outdoor, nella quale convivono la ricerca del comfort e dell'eleganza, l'esperienza progettuale e materie prime d'eccellenza. E' una collezione di prodotti innovativi per l'ambiente esterno progettato con lo stesso comfort degli interni domestici, però il piacere di vivere in ambienti curati. La finitura mélange del filato, le raffinate tonalità e la bordatura in diversi colori, fanno della collezione 'Plein Sud' un importante complemento di qualità sartoriale per gli spazi 'indoor' ed 'outdoor'. I tappeti sono realizzati su telai manuali, in filato di fibra sintetica. La particolare lavorazione che combina gli intrecci del telaio alle applicazioni manuali, conferisce a questi prodotti lo spessore, la qualità e l'eleganza dei tappeti per interni. Il filato ha una resa ottimale in ambienti. Tutti i modelli della collezione 'Plein Sud' hanno una elevata stabilità ai raggi UV, sono trattabili antimuffa, antimacchia ed idrorepellenti. I tappeti possono essere realizzati su misura. Plein Sud è 100% 'renewable design'.

Design: Paolo Zani

'Plein Sud' is a line of carpets for the residential and the 'Contract' outdoor, combining comfort and elegance, design experience and excellent raw materials. It's a collection of innovative products for the outdoor environment designed with the same comforts of home interiors, for the pleasure of living in beautiful surroundings. Thanks to the finish of the mélange yarn, with elegant shades and edged in different colors, the collection 'Plein Sud' becomes a quality complement both for outdoor and indoor spaces. The carpets are made on hand looms with a synthetic fiber. The particular process that combines the plots of the frame to the manual applications gives these products the thickness, the quality and the elegance of indoor carpets. The yarn is perfectly suitable for outdoor environments thanks to its durability and its resistance to atmospheric agents. All the models of the collection 'Plein Sud' have a high UV stability, are water repellent and can be stain-proof and anti-mold treated. Carpets can also be custom made, after consultation with our technical department. Plein Sud is 100% 'renewable design'.

ACCESSORIES

Site | Alla versione da interni con top in tappeto 'Khadi' abbiamo affiancato quella da outdoor di pouf e poltrona. Rivestimento in tessuto acrilico con cuciture a ricamo. La struttura interna non ha parti rigide ma una fodera in tessuto sintetico a camere separate, contenenti sfere in polistirolo espanso.

Scilla | Lanterna in acciaio inox lucidato e vetro temperato, utilizzabile anche per esterni. Essenziale e trasparente come una scatola di luce naturale.

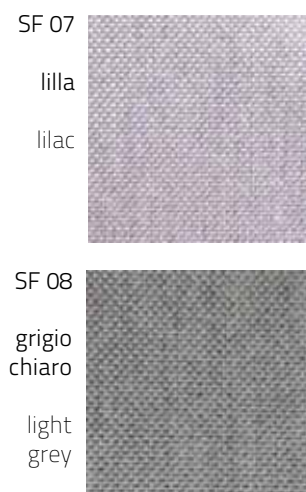

Design: Paolo Zani

Site | After the indoor version with top carpet 'Khadi', we have added the outdoor version of both pouf and chair. Cover in acrylic fabric and embroidery stitching. The internal structure has no rigid parts but a synthetic fabric lining with separate chambers filled with expanded polystyrene pearls.

Scilla | Lantern in polished stainless steel and tempered glass, suitable for outdoor use. Essential and transparent like a box of natural light.

Design: Paolo Zani
