VELA

by Ramón Esteve

The VELA Collection offers a wide range of outdoor furniture and planter collections that is available for indoor and outdoor use. VELA is based in prismatic geometry, that features the right balance between its proportions. The elements can combine among themselves to integrate into any space. An illusion of floating is created, the incorporated lights transform them into floating architectures.

La colección VELA ofrece una extensa colección de muebles y maceteros para exterior busca ofrecer el confort y la calidez de los muebles de interior sin perder sus cualidades de origen. VELA es un sistema modular con una geometría elemental prismática que basa su singularidad en el equilibrio de sus proporciones. Los elementos se pueden combinar entre sí para poder convivir en cualquier espacio. Sus volúmenes rotundos parecen flotar a unos centímetros del suelo y cuando se iluminan se transforman en arquitecturas livianas.

Eugeni Quitllet

Ibiza, Spain 1972

The Catalan designer Eugeni Quitllet was born on 17th April 1972 in Ibiza. He graduated from ‘La Llotja’ art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects. Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour: the Masters chair combines the 3 contours of legendary seats by Eames, Saarineen and Jacobsen, the K Ray lamp is an organic UFO, a network of veins hol – lowed out of the material which results in an object suspended in a frame, his signature method prevalent naturally in several of the designer ’ s projects: the Shine vases, the Light Air lamp, the o’Clock lamp, without forgetting the O Ring watch, a hole in time in the true sense, best seller of the brand Fossil modernising watchmaking codes. Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed .

BUM BUM **TORO**
(also available with audio)

BUM BUM was born from the principle of not designing objects, but rather musical instruments to be used for another purpose; the same as a person who holds a shell to their ear to hear the ocean. This collection that has tubular shapes allows us to experiment with light and sound simultaneously. It's "argonautic" form enables us to create a new environment, as well as atmospheric spaces, wherever we are. The collection is made up of a sofa, a table, an armchair and "toro"(bull), a unique member with a great variety of functions. It is a collection designed for the God of the sea, Neptune, and the mermaids that dance in time with the waves...It's that simple...a summer dream.

BUM BUM nace del principio de no diseñar objetos, pero instrumentos musicales con otra función; como quien acerca la oreja a una caracola para escuchar el mar. Esta colección a partir de formas tubulares permite jugar con la luz y el sonido simultáneamente. Con su forma "argonáutica" permite crear un nuevo ambiente así como espacios atmosféricos allí donde estés. La colección esta compuesta por una sofá, mesa, butaca y "toro" un elemento único de gran versatilidad en cuanto a su funcionalidad. Una colección diseñada para Neptuno dios del mar y las sirenas que bailan al son de las olas... Así de sencillo...un sueño de verano.

PEDRERA

by Eugeni Quitllet

The PEDRERA chair was inspired in the curvy and sensual shapes of “La Pedrera”. It wants to play with the waves and become part of an ongoing movement... that of an undulating to infinity which imitates the movement of the sea. A chair which has a stackable shape and design for the purpose of reducing space. It is light and comfortable.

*Pedrera, a unique building built in the city of Barcelona between 1906 and 1912 by the architect Antoni Gaudí.

La silla PEDRERA está inspirada en las formas onduladas y sensuales de la Pedrera. Esta silla quiere jugar con las olas y fundirse en un movimiento continuo... Una ondulación al infinito que reproduce el movimiento del mar. Una silla que por su forma y diseño permite ser apilable con el objetivo de reducir volúmenes. Ligera y confortable.*

AND

by **Fabio Novembre**

AND is a spatial concept, a volume that cuts through the air, creating emotional turbulence for those who get swept up in it. AND is the result of two people looking at each other out of the corner of their eye, a multiplication into the infinite that includes anyone who simply wants to be there. AND is the reflection of the DNA of a generation that has embraced co-existence while denying tyranny.

AND es un concepto espacial, un volúmen que corta el aire creando turbulencias emotivas en quien es absorbido en su espiral. AND nace de dos personas que se miran con el rabillo del ojo, multiplicándose hasta el infinito para incluir a todos aquellos que simplemente quieren estar juntos. AND es el reflejo del ADN de una generación que ha abrazado la convivencia renegando de la tiranía. AND: es el momento de la conjunción.

Ross Lovegrove

Walles, UK 1958

Ross Lovegrove is a designer and visionary who ’ s work is considered to be at the very apex of stimulating a profound change in the physicality of our three dimensional world. Inspired by the logic and beauty of nature his design possess a trinity between technology, materials science and intelligent organic form, creating what many industrial leaders see as the new aesthetic expression for the 21st Century. There is always embedded a deeply human and resourceful approach in his designs, which project an optimism, and innovative vitality in everything he touches from cameras to cars to trains, aviation and architecture.

"PLASTIC" means retaining the fluidity and motion in inanimate objects.

Biophilia

BIOPHILIA

by Ross Lovegrove

The BIOPHILIA Collection explores a new avenue of design that forms a dialogue between time, shape and space. It combines the trend-setting natural design of the Sagrada Família by Antonio Gaudí, VONDOM's expertise in advanced rotational moulding technology and the ongoing line of research of digital transference into contemporary design. Taken out of craft and into the 21st century's progressive domain of polymerization and industry, BIOPHILIA is a collection that acknowledges this lineage but pushes the boundaries between material structure and shape into a new modern territory as yet unseen, diametrically opposed to modernism in its expression.

BIOPHILIA Collection explora el lenguaje de un nuevo diseño que constituye un diálogo entre el tiempo, forma y espacio que combina el diseño de vanguardia orgánica de la Sagrada Família de Antonio Gaudí, los conocimientos avanzados de VONDOM en la técnica del rotomoldeo y los estudios de investigación sobre el proceso de transferencia digital en el diseño contemporáneo. Este proceso de enriquecimiento tiene su origen en una época en que el descubrimiento de la naturaleza, su maravilla y la consiguiente diversidad de formas a partir de Art Nouveaux, un movimiento artístico infinitamente hermoso y sensual que dio vida a los objetos inanimados en el mundo orgánico a través de la fluidez orgánica de la mente de los diseñadores, artistas, fotógrafos y arquitectos.

Delta

DELTA

by Jorge Pensi Studio

The DELTA Collection is made up of various pieces that can be used to form exterior lounge areas, but are also adequate for interior ones, thanks to their neutral shapes that are still full of identity. One of the characteristics of this set is that it looks light because it rests on the floor on beautifully formed aluminum legs which give the object an appearance of virtually floating.

La colección DELTA está integrada por numerosos elementos que permiten organizar áreas de lounge no sólo en el exterior, dado que por sus líneas neutras aunque con claros signos de identidad, su uso en interiores es totalmente adecuado. Una de las características de este programa es su ligereza visual, dado que llega al suelo mediante sus esbeltas patas de aluminio lo que hace que el objeto parezca virtualmente flotar.

DELTA

by Jorge Pensi Studio

The DELTA table has a remarkable smart appearance. It is made to fit in with exterior or interior contemporary spaces. The injected aluminium base and extracted aluminium column makes it ideal for use in the open air, due to the weather-resistant properties of these materials. The folding top and the design of the base enable the tables to be lined up one against the other to save space when they are not in use. There is an option for different finishes to the aluminium parts as well as the table tops, which mean that the Delta adapts to any architectural space.

La mesa Delta nace con una imagen formal singular. Está concebida para convivir tanto en espacios contemporáneos interiores o exteriores. La base de aluminio inyectado y la columna de aluminio extruído hacen idónea su utilización a la intemperie dada la resistencia de estos materiales a los agentes externos. El sobre abatible y el diseño de la base permiten el adosamiento de mesas en línea para ahorrar espacio cuando no están en uso. Las distintas opciones de acabados tanto para las partes de aluminio como para los sobres, hacen que Delta se adecue a cualquier espacio arquitectónico.

Ora-ïto

Marseille, France. 1977

Born in 1977, this iconoclastic artist became globally famous at the end of the 90's by hijacking in 3D the products of the most emblematic and international brands such as Vuitton, Apple, Nike and Bic ... Furthermore thanks to numerous publications in the press, the fiction turned into reality. When customers tried to purchase these imaginary products, the orders flooded Ora-ïto's web site. This became the second digital work ever acquired by the National Funds of Contemporary Art (FNAC). During the years 2000, Ora-ïto dedicated himself to his own studio and the creation of real products, by developing transversal projects of nearly all the business sectors of design, architecture, communication, and so on.

His creations conceal the codes of a new luxury, timeless and universal with the same minimal working drawing: evident forms to be understood in flash, fruit of his philosophy.

COLLECTION:
UFO

UFO

by Ora-ïto

The collection results from “genetic mutation experiments” between the iconic languages of pagodas and UFOs. It is characterised by the opposition of negative and positive shapes. This creative approach gave birth to a Marta Pan inspired monolithic, fluid and sculptural line that encourages comfort and relaxation. Its items make it possible to create different combinations which are easily adaptable to outdoor spaces thanks to its elegant and resistant materials. The colors, range of finishes and interior lighting expands the possibilities to create different environments.

Gabriele + Oscar Buratti

Since 2010

Gabriele Buratti (1962), architect and professor of interior design at the Facoltà del Design of the Politecnico di Milano (2003-2010), and Oscar Buratti (1967), architect, have founded the architecture and design studio BURATTI ARCHITETTI.

The studio is transversally involved in projects of different scales, from the architecture of buildings and urban areas to interiors, from furniture and product design to exhibition and showroom design, in an intense and varied professional path, in which themes, locations, brands, people, materials and workmanship mingle together contaminating one another. They design residential, commercial and industrial buildings, they carry out projects in historical city centres and refurbishing measures of building complexes, they design villas and interiors of working, residential, retail spaces, in Italy and abroad, with the aim of combining culture with professional specialization, experimentation with technique and an original vision with a high standard quality.

REST

by **A-Cero**

Inspired by ORIGAMI, the Japanese art based on folding paper in order to get different forms, and the motto of “Less is more” The whole is composed of an armchair, sofa, and table, with a modular structure which allows you to freely adapt them to your individual needs in any space. The manufacturing process used is rotational moulding, which is a technical process that guarantees the maximum quality of the final product by taking care of even the smallest details. REST reflects the spirit of its creators, who are always loyal to elegance, beauty and exclusiveness, as well as the complete adjustment to customers. From well-defined, geometrical, yet elegant and light shapes, a new collection is born that provides maximum comfort for its users and fits perfectly in with innovative architecture, thanks to its contemporary design, a characteristic principle from the A-cero studio.

Una colección inspirada en el ORIGAMI, arte de origen japonés basado en el plegado del papel para obtener figuras de formas variadas, y en la línea del pensamiento “Less is more”. Se trata de un conjunto formado por un sillón, un sofá y una mesa, cuyas estructuras modulares dan libertad para que el cliente pueda amoldarlas a sus necesidades y adaptarlas a cualquier espacio. La técnica de fabricación utilizada es el moldeo rotacional. Se trata de un proceso tecnológico que garantiza la máxima calidad del producto y cuida todos los detalles. REST nos muestra la esencia de sus creadores siempre fieles a la elegancia, la belleza y la exclusividad, así como su total adaptación a los clientes. A partir de unas formas geométricas marcadas, dinámicas, elegantes y ligeras, nace una colección que proporciona el máximo confort al usuario y se integra en la arquitectura de vanguardia gracias a su diseño contemporáneo como la que nace del estudio A-cero.

ALMA

by A-Cero

A unique collection due to its original and innovative design, inspired by nature. Its slender shapes call to mind the stem of a plant that ascends out of the ground becoming a support for leaves and flowers. ALMA makes possible a new sort of decoration, without having to pass up on practicality, as this collection of flowerpots can be placed in exterior spaces and kept in good condition, even under the most extreme weather conditions.

Una serie única por su original e innovador diseño, inspirada en la naturaleza, cuyas formas estilizadas recuerdan al tallo de una planta que desde la tierra asciende sirviendo como sustento de las flores y hojas. Con ALMA se ofrece un nuevo concepto de la decoración sin dejar nunca de lado la practicidad, ya que esta colección de maceteros puede ser instalada en exteriores manteniéndose en buen estado, incluso bajo las condiciones climáticas más extremas.

Palomba's Team

Italy 1994

Ludovica+Roberto Palomba's work has always been rich of cultural references. Their projects are derived from observations of change in human behavior. Their mission is to generate products that merge function, innovation and longevity – intimate and emotional connections that last. "We believe that good design already exist in a sort of collective unconsciousness and our task is to mold and deliver them". A truly successful piece of design must feel fresh but not unfamiliar when it is discovered.

BONES

Bones is elegant in its slender shape but at the same time strong in its build. Its generous volume is softened by a subtle edge that makes it light. Bones on an engineering level is fantastic, with an invisible internal structure that provides the necessary strength, transmitting the weight from the base of the container to the base of the flowerpot to bear the weight of any plant or tree. Bones is made of resin of PE by means of the rotational molding technique and is available with various VONDOM finishes.

Bones es elegante por su esbeltez pero a la vez robusta por su concepción. Su generoso volumen es aliviado por un sutil reborde que la hace ligera. Bones a nivel de ingeniería Bones es genial, una estructura interna invisible a la vista proporciona la robustez necesaria transmitiendo el peso desde la base del contenedor a la base de la maceta para lograr soportar el peso de cualquier planta o árbol. Bones está fabricado en resina de PE mediante la técnica del moldeo rotacional y se ofrece en los acabados made in VONDOM.

by JMFerrero_estudi{H}ac

Marquis, originating from the inspiration of diamond cutting. Its polygonal design recalls facets created through cutting. The clear and stylish shapes make a huge visual impact. Circular or oval, and in 2 combinations of colours, they give a space great dynamism. Its soft texture achieved through polyethylene fibers allows for outdoor use, it also being resistant to UV rays.

Eero Aarnio

Helsinki, 1932

Aarnio studied at the Institute of Industrial Arts in Helsinki, and started his own office in 1962. The following year, he introduced his Ball Chair, a hollow sphere on a stand, open on one side to allow a person to sit within. The similar Bubble Chair was clear and suspended from above. Other innovative designs included his floating Pastil Chair (similar to a solid inner tube),[2] and Tomato Chair (more stable with a seat between three spheres). His Screw Table, as the name suggests, had the appearance of a flat head screw driven into the ground. He was awarded the American Industrial Design award in 1968.

Aarnio's designs were an important aspect of 1960s popular culture, and could often be seen as part of sets in period science-fiction films.[3] Because his designs used very simple geometric forms, they were ideal for such productions. Eero Aarnio continues to create new designs, including toys and furniture for children. Eero Aarnio opened his official webshop and first Design Eero Aarnio Showroom, in Helsinki. There you can find Aarnio`s latest design, prototypes and latest news.

Teresa Sapey

Italy 1962

Studio Teresa Sapey is an architecture and design studio based in Madrid since it was founded in 1990. The team's guiding force streams from curiosity and energy. In fact, the range of fields approached by this practice is extremely broad: It varies from spaces to displays via furniture, graphics and editorial works. Projects not only stem from feelings, but they are also capable of transmitting these same emotions to their clients and customers. "By working with spaces my aim is to be touching and therefore render emotions palpable: Three-dimensional, even four-dimensional. No matter the feelings is, as far as it is a feeling, I would go for it! I believe that architecture should interpret, build and transmit these inspiringly and usefully"

MOMA

by Javier Mariscal

By asking the question “how do we sit down?” three different versions arose that could be adapted into three different environments: one for a chill-out scene, Low, completed with a very comfortable pouf out of the same collection; another to be used when seated in a chair or armchair, Medium; and another for a standing position or when sitting on a stool, High, ideal for the pleasure of enjoying a cup of wine outdoors. The first sketches showed natural shapes, which as the project developed leaned towards more architectural shapes that call to mind a column with a capital or a corbel.

A partir de la pregunta ¿cómo nos sentamos? surgieron tres versiones que podían adaptarse a tres ambientes distintos: una para chill-out, Low, completado con un puf de gran confort de la misma colección; otra para utilizarla sentados en una silla o butaca, Medium, y otra a la que se llega de pie o sentado en un taburete, High, pensando en el placer de tomarse una copa al aire libre. Los primeros bocetos presentaban formas orgánicas que en el desarrollo del proyecto fueron derivando hacia formas más arquitectónicas que recuerdan a una columna con capitel o a una ménsula.

This collection is characterized for its tubby shape, colorful and timeless. LAS MOMAS have a flat face, what makes them smarter and versatile. They can be leaned against the wall, built-in, etc., to take maximum advantage the space. It has a spacious interior thus the bushes and plants can grow vigorously. Their great function gave rise to their shape.

Esta colección se caracteriza por su forma barriguda, colorista y atemporal. LAS MOMAS tienen una cara plana, lo que las hace más limpias y versátiles. Se pueden apoyar en la pared, empotrar, etc., para aprovechar al máximo el espacio. Tiene un espacioso interior así los arbustos y plantas puedan crecer vigorosamente. Su gran función es debida a su forma.

Agatha Ruiz de la Prada

Spain 1960

Agatha Ruiz de la Prada first stepped into the fashion world in 1981. The collection proved to be such a success that she soon opened her first studio-shop in the Spanish capital and started to participate in fashion shows in Madrid and Barcelona. Although Agatha gained a certain level of recognition early on in her career, her true fashion breakthrough came when she allied forces with one of Spain's most important department stores, El Corte Inglés. Thanks to this partnership, the designer's collections were soon distributed throughout the entire national territory. Having conquered Spain, Agatha little by little started to cross borders and gain international recognition by means of her fashion shows and exhibitions and then expanded the family of products: clothes, furniture, perfumes...

A high-angle, wide shot of a modern rooftop terrace. The terrace is characterized by its vibrant red, geometric walls and railings that create a series of interconnected platforms and walkways. Scattered throughout the space are several white, minimalist chairs and stools. A woman, dressed in a bright red sleeveless dress and high heels, is captured in motion, walking across one of the lower platforms. The background is dominated by the deep blue, textured surface of the ocean, which stretches to the horizon under a clear sky. The overall aesthetic is clean, contemporary, and visually striking due to the bold color palette.

HANDLING AND CARE

VONDOM covers are impregnated to resist water, oil and dirt, functioning to protect the furniture. They are not recommended as a permanent cover for cushions, as moisture may collect and lead to the formation of mold stains. Furniture and cushions should be thoroughly dry before using the covers. Please note that the covers are especially tailored to your furniture item and precise placement is required. In order to increase the circulation of air and avoid the formation of condensation, the covers are not made to floor length. Never pack or fold covers that have become wet; instead, let them dry in a well-ventilated place. Use a soft cloth and warm water to clean the covers, using a gentle upholstery cleaner if necessary. Rinse with clear water. Solvents are not suitable for cleaning the covers as these are aggressive to the surface and may cause damage and discoloration.

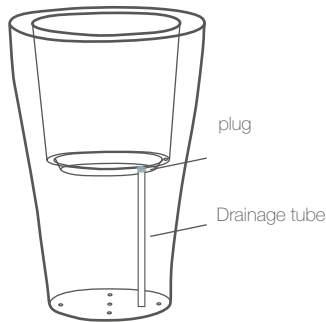

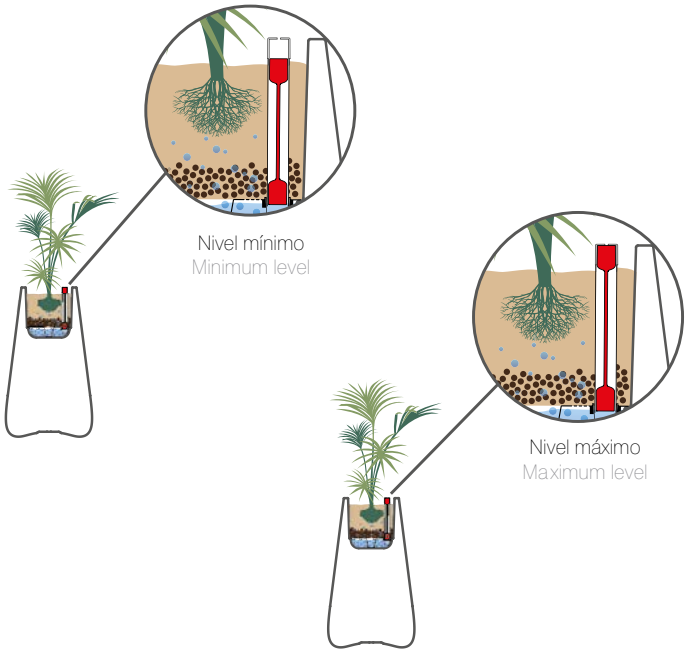

INSTRUCCTIONS_Product Description

RECOMMENDATIONS

After this period of adaption for the roots, fill the water tank until the top very slowly until the indicator reaches the maximum level. If there is no water, the indicator will be at the minimum level, check the indicator level regularly. The period of watering depends on the flowerpot size, plant type and its location. Consult it with a professional in the sector.

INDOOR (White Led and Led finishes)

For indoor use, need to check if the stopper of drainage is placed before planting the plant.

OUTDOOR

For outdoor use, please take off the stopper of drainage (Light and Led finishes) and drill the holes at the indicated mark, bearing in mind the position of the water tank (Basic, Self-Watering and Lacquered) and also in the base of the flower pot, so that if it rains, the water overflow will evacuate and not harm the plant.

If you cover the soil with a fine layer of stones, it will stop the moisture from evaporating and improve its aesthetic appearance. For fertilizing and better care of your plants, consult your gardener or your garden centre. VONDOM, accepts no responsibility for any damage done to the plants caused by the incorrect use of flowerpots.

USO Y MANTENIMIENTO

Las fundas Vondom son impermeables y repelen el agua, el aceite y la suciedad y sirven para proteger el mueble. Pero no sirven para cubrir los cojines de forma permanente porque se puede formar humedad junto a las costuras de la funda y dejar manchas de moho en la tela. Antes de utilizar las fundas, el mueble y los cojines han de estar secos. Tenga en cuenta que las fundas están adaptadas especialmente a sus muebles y es necesario colocarlas correctamente. Para aumentar la circulación de aire, las fundas no llegan al suelo. No guardar o doblar las fundas húmedas, dejar que se sequen en un lugar con buena ventilación. Para limpiar las fundas utilice un paño suave, agua caliente y un producto de limpieza suave si es necesario. Después lávelas con agua. Los disolventes no son aptos para la limpieza de las fundas porque pueden atacar, dañar o decolorar la superficies a tratar.

ES | ACABADOS

INSTRUCCIONES_ Instrucciones de plantado

- Ponga una capa fina de arcilla expandida de unos 2 ó 3 cm. de grosor sobre la base del autorriego.
- Añada la tierra vegetal para plantas a la maceta, procurado dejar un hueco para el cepellón de la planta que quiera plantar.
- Plante la planta en la maceta aireando previamente las raíces para favorecer su crecimiento.Acabe de rellenar con tierra vegetal la maceta y presione bien la tierra con las manos para una perfecta compactación
- Riegue la planta sobre la tierra. En las próximas semanas tendrá que regar por encima, ya que las raíces de la planta no han llegado hasta la capa de la plataforma del autorriego, donde se encuentra el depósito del agua.

RECOMENDACIONES

Después de este período de adaptación de las raíces, llene el depósito de la reserva del agua al máximo, muy lentamente hasta que el indicador del agua suba hasta su nivel máximo. Si no hay agua el indicador estará al mínimo. Compruebe periódicamente el nivel del indicador del agua. El período de regado depende según el tamaño de maceta, tipo de planta y de su ubicación. Consúltelo con un profesional del sector.

INTERIOR (acabados Led Blanco, Led RGB)

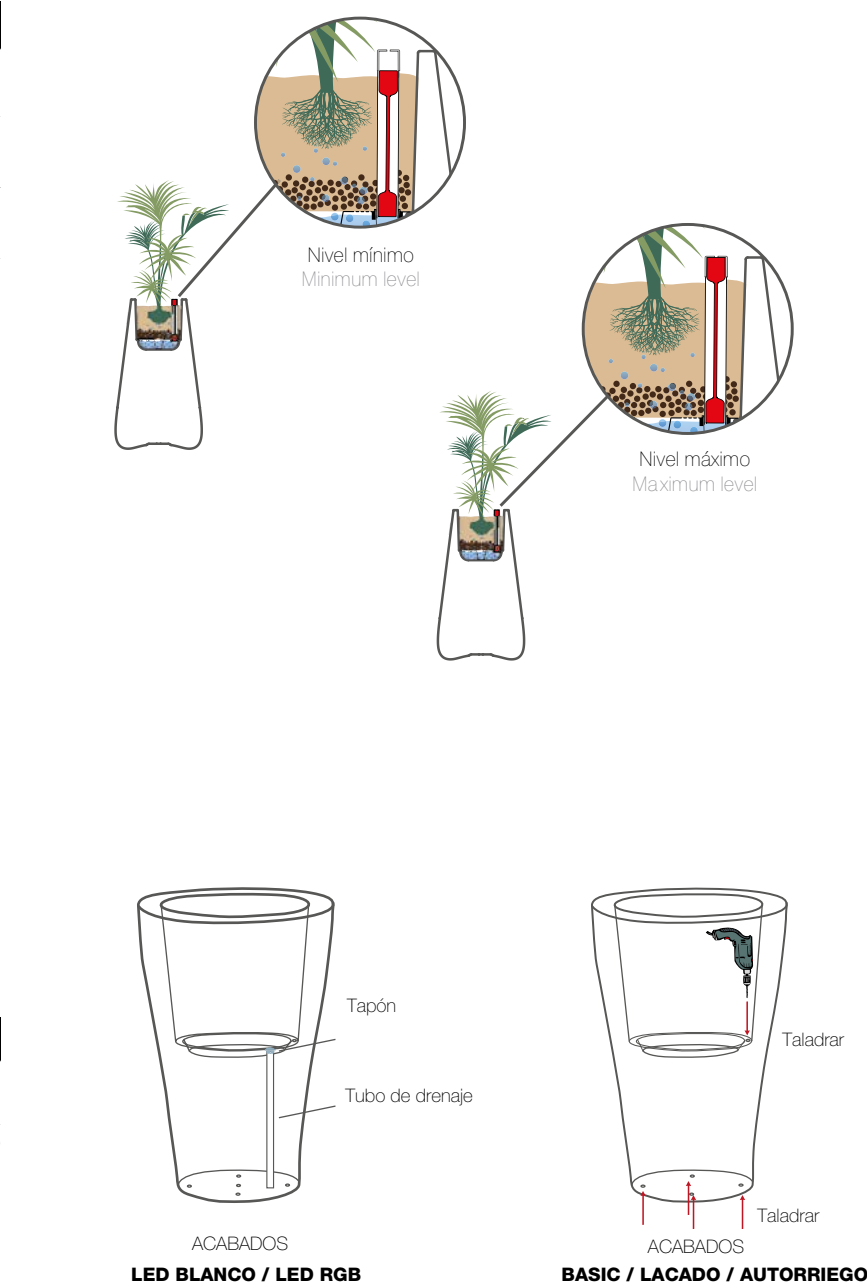

Para uso interior se tiene que comprobar que el tapón del drenaje esté colocado antes de plantar la planta.

EXTERIOR

Para uso en el exterior se tiene que sacar el tapón del drenaje (acabados Led Blanco, Led RGB) y taladrar los puntos de precorte respetando la reserva del agua (acabados Basic, Lacado y Autorriego) y en la base de la maceta, ya que si llueve el agua sobrante podrá evacuar y no dañará la planta.

Si cubre la tierra con una capa de piedras de jardinería, evitará que se evapore la humedad y mejorará su aspecto estético. Para el abonado y un mejor cuidado de sus plantas, consulte en su tienda especializada o a un profesional del sector. VONDOM, no se hace responsable de cualquier daño ocurrido en la planta debido a un mal uso de sus macetas.
