Salvador Dalí

Antoni Gaudí

Alessandro Mendini

REmix vol. 3 / 4

Art is in the DNA of BD. From our first collaboration with Salvador Dalí, one of the major artists of the 20th century, followed by bringing the work of Antoni Gaudí to the market, we have merged the designs of great artists with our innate ability to breathe life into visual concepts, combining artistry, inspiration and craftsmanship with a quest to continually broaden our horizons. Seeking out new talents and working across cultures and disciplines to create a vibrant, artistic collection that includes work by, not just the grand masters such as Ettore Sottsass and Alessandro Mendini but also international talents including Jaime Hayon. BD creates limited editions and small numbered quantities of works by an eclectic group of artists, united in their exceptional creativity.
